ABOUT US

INCORPORATED ESTABLISHED 1989 Enriched Investing™ is an investment management firm founded in 1989. Over the last 33 years we have developed unique portfolio strategies ideally suited for high net worth investors and institutions. Our current platforms offer customized portfolio strategies and “Fund” type investment disciplines which set perimeters and objectives in a more regimented structure.

OBJECTIVES

Enriched Investing's experienced management team focuses on reaching above average capital growth and preservation of capital using a unique disciplined approach. Our proprietary strategy[‡] involves the evaluation of the top 350 Canadian dividend paying stocks. After our analysis we purchase up to 15 companies typically with above average growth, at below average valuation and risk, high ROE, low debt to equity, and better ability to pay down debt. The portfolio is monitored daily and adjusted monthly.

The long-term objective of this strategy is to generate a total return that exceeds the Canadian equity market and to manage the volatility of the portfolios through stock selection and the ability to hold significant levels of cash. This strategy is focused purely on publicly traded Canadian stocks that pay dividends.

[‡]Robert McWhirter has licenced this strategy to Enriched Investing™

STRATEGY

We buy up to 15 Canadian companies with

- above average growth at
- below average valuation and risk with
- high ROE
- low Debt to Equity and
- better ability to pay down Debt

We look for: ABOVE average GROWTH

At March 31, 2022 the 15 Canadian stocks in the strategy had these compelling fundamentals (on an equally weighted basis):

The average year over year GROWTH per share of:

Sales, Earnings, EBITDA and Free Cash flow

31%, 250%, 96% and 487% BETTER.

at BELOW average VALUATION (LOWER is BETTER)

The average four quarter trailing P/E and Enterprise Value to EBITDA

49% and 72% BETTER. (8.67 vs 16.91 and 6.6 vs 23.23)

with LOW HISTORICAL RISK

The average 5 year: BETA and Earnings Stability

10% and 30% WORSE.

with ABOVE average RETURN ON EQUITY (4 qtr trailing)

45% BETTER. (19.95 vs 13.72)

with ABOVE average Annual Dividend Growth

6.0 times BETTER. (28.49 vs 4.76)
